## Program philosophy

*Authentic  
leadership  
comes  
from the  
inside out*

LEAD is a unique program that combines both leadership and management development to inspire professional and personal development and growth.

This program focuses on maximizing participant interaction and sharing and encourages self-assessment and reflection.

Participants spend one full day together once a month (excluding summer) learning from leaders within our community.

The program culminates with a best practices symposium where participants share best practice applications.

## What LEAD participants have to say:

- It was a pleasure to meet with people who are managing and leading people with the skills and abilities I'm trying to learn from the course.
- Great learning opportunity for a new or seasoned manager.
- Highly recommend – learn a lot about yourself as well as how to effectively interact with staff and peers.

*An  
exemplary  
leader not  
only listens  
but pays  
attention*

## Program overview
